Dear Parents Carers

Middle school entry 2021

We do hope that by now your child has settled very quickly into Year 4 and that they are happy to be back with their friends enjoying their learning.

We are very aware that you will now be considering the next phase of your child's schooling and that you will have to choose a middle school by January 2021. To assist you with this we have liaised very closely and are providing all our relevant information that you may need to achieve this on our websites. Due to the governments declaration that schools should not allow visitors into school all our communications will take place virtually. This will ensure you and your child's continued safety as well as that of our pupils and staff.

Attached to this letter are invitations to the launch of the sections of our websites relating to transition. These areas will tell you how to find the information you seek about our schools and how to contact us for any further personal questions you may have.

We are deeply sorry that we are unable to offer live tours in school for you at this time but hope that maybe in the summer term this might be possible. Our current Years 5's settled in very quickly using this remote technology approach. You may wish to view this section also to get a feel of how we can support your child at the point of transfer in 2021.

Ensuring you of our commitment to you at all times

Sincere regards

Emma Wilkes
Headteacher, Oakfield Academy

Jean Hopegood
